

For Your Information...

Welcome to Texas Healthcare! We are honored to have the opportunity to serve you! For many of our patients, this is the first time they have been involved in car accident, a work related accident, or the first time they've suffered an injury of this nature. Your doctors and staff are happy to answer any questions you may have, so please do not hesitate to ask. We have put together some information that you may find helpful...

Care Plan

While your injuries are unique, all patients share a common goal, and that is to heal from the injuries you have sustained. It is critical that you follow the care plan your physician prescribes, so you may achieve this goal. **We encourage you to make all your scheduled office visits, and to promptly reschedule when an unavoidable circumstance arises.** Remember, the absence of pain does not equal complete healing. The child who breaks his arm is out of pain long before the doctor removes the cast from his arm. Healing takes time.

Change in Information

If your address, phone number, or e-mail changes at any point during *or after* your treatment, please inform our office immediately. **If you are being represented by an attorney, please let us know if for any reason your representation status changes.** We are committed to providing our patients with the best service possible, and continued communication with our office ensures that we have the opportunity to answer further questions. Remember, we can help!

Final Details

For our patients who are being represented by an attorney, once you have completed your prescribed care plan, **your medical records will automatically be forwarded to the attorney you have on record with our office.** Again, if your representation status should change for any reason, please give us a call. Contact information for our corporate office is listed below:
